# A Partner in many Gigantic **Enterprises**

THE HOCKING VALLEY has an important share in the development of industrial establishments and manufacturing plants in the territory which it serves.

This Company is the Transportation Partner in all these enterprises Its business is to move raw material to the point of manufacture and then the finished product to the place where there is a market for it. This service, to be worthwhile, must be Prompt, Adequate and Dependable.

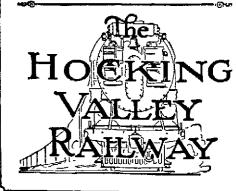

In the prompt movement of shipments, this Company adds to the profits and satisfaction, both of the producer and consumer. It assures the delivery of the output of mines and factories at the places where and when

In adequacy of service, this Company supplies the kind of equipment and the number of cars desired at places where requested, and moves them as quickly as possible There is no complaint now of car

In dependability, this Company sees to it that care is taken in the handling of shipments, that schedules are rigidly maintained, and that the entire plant is kept up to a high state of efficiency

This is the service that the Transportation Partner renders to Business As immense locomotives pull long, heavy freight trains at high speed over rock-ballasted tracks, the ceaseless rythm of the rolling wheels forms an eternal echo that reverberates from the part the Rail Carriers play in the promotion of prosperity. If these services are not efficiently performed the loss to the public is incalculable.

EUROPEAN MARKET LEAD

PARIS—American films continue
to dominate Unropean markets despite "quotas" and other restrictions,
according to the statistics for 1928
collected by George B. Gants, Department of Commerce Trade Commissioner for the life industry and
attache of the United States timlanest here.

The United States, moreover, is
showing an increasing interest in
films made abroad. Foreign films imported into the United States during
1928 exceeded by nearly 200 per
cent the number exported in the
previous year.

In the Franch field, American
films hold a predominant place, Of

# GREATER HUDSON

# and Motordom calls for **LARGEST HUDSON** output

# of all time

Already in response to the public's demand, production of the Greater Hudson has been increased, and then increased again-by far the largest schedule Hudson ever found

In their own words, by their marked and recorded ballots, motorists by tens of thousands are telling us the Greater Hudson is truly the greatest of all time.

Voting in every Hudson salesroom in the country, these enthusiastic multitudes have piled up the most convincing endorsement in Hudson history. Perhaps even more important, they have bought these beautiful new Hudsons in such numbers that we must make thousands more of them to insure prompt delivery.

Every experience and suggestion of the world's largest 6-cylinder owner-

Representative Cooks and A fitte the his solv purpose in of eit. I till to remedy what he hold is an area inform Charles like situation 11 1 In t1 The city of Roth on e more has uttained eight years which have eight north r the unlique distinction of being the site of the direment pension against a amount the the fund was grown from notting to \$ 3 600 000 and that should the bille passed it will execct \$10,000 of 0 1 ( ) inca are be comes a lew which interring vill b steadily rigmented ) four perce to fithe arbities of trachers up to \$2,000 at 1 the interest cars

As an indication of the probable growth of the fund receipes list year were approximilely \$6 000 000 of all h talks came from the Marion city rehnols and expenditures were only in the n lybbarhood of \$1 500 000 Such an excess of contributions over expenditures the Marlon county representative holds is unbusinesslike and place in unnecessary tax buiden on the propte

When the costom went into effect Mr Lookston has explained the school boards contributed five per cent of the total amount of the teachers payrolls and an additional four per cent was sended against the teachers. This five per coul paid by the school boards has been reduced from time to time last years payment being but "57 per cent

School officials and teachers who oppose proposed amendment maint in that this latter percentage should be midutained until the fund is assuredly solf sustaining at which lime the school boards share could be safely eliminated Advocates of the measure take the view that the payments by school boards should be definitely limited un provided in the Cookston bill which they point out pro oldes a sufeguard in the Spal clause of the all in the prevision that should the surplus in the pension fund ever fall below \$10 -000 500 payments by school boards are to be resumed

It is no more than natural that school icachers desite every possible protection and the od ill de burt notened and that the suff ficient to meet all demands locally made up on it in which they are justified the more so for the reason that under the present ar rangement they are contributing more than half of the zerrly accession to the fund. But in the light of the fact that the expenditures for the past'year were only approximately inents five per cent of the contributions sarcly there can be little danket that they vill guffer from a fallure of the fund specially so when the protective clause makes provision for the resumption of the boards contributions in the event that the surplus drin 600 000 01\$ off wold alla

We would be the last to look with favor upon any plan which might occasion loss to the school teachers of the state who it may be said are but poorly paid even without con identity the time they have to give to preparation without considering the short ness of their year and without considering the expense to which they are put after being employed. But it seems to us that there is no occasion for an inunit expenditure of approximately \$10,000 by the impayers of the local school district for the maintuning of a surplus which without echnol bourleson tributious would be reimbursed with two 110 dollar for every dollar fald out

### LADY TELLS HOW FAMOUS KONJOLA BROUGHT HEALTH

Brief Treatment With New Medicine Banished Every Trace of Stomach

MRS, DAVID TRUMAN

Konjela means all the world to m or without health, nothinge lse is vorth while and Konjola gave me o

condition and even the lightest die was impossible without gas, bloating and pain. My kidneys were badly in ritated, causing me to get up man times at night. I lost in weight, vi ality, and strength, and finally had to go to bed when the spells of indi-cestion come on. I could not attend to my housework and every day was one

misery. "I read about Konjola and finally "I read about Konjola and finally decided to see what this medicine would do for me. Gradually mg appetite returned. Imagnic my delight when I are a hearty meal and there was not a trace of indipestion. Then my hidneys came around and I could steep the mest through. Sure Way to Get Rid of Dandruff

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. Then you destroy it entirely.

To do this, just get about four cunces of plaincordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most, if not all, of your dandruff will be gone, and two or three more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching
